DESCRIPTION

Ursuit Heavy Light is a long-term favourite for several different purposes. The very lightweight yet resistant trilaminate material provides excellent performance for both entry level diver and a hardened veteran. The revised cut of the sleeves and shoulders enable excellent mobility. The crotch seam is renewed to prevent wear-and-tear and to provide even better abrasion resistance. The light-build YKK Aquaseal PU zipper provides comfort and adaptability to movement. The suit is equipped with a warm neck collar for added comfort in cold water dives. The warm neck is compatible with most separate hoods. The suit has integrated suspenders, which together with the crotch strap enable a telescopic waist structure. These features combined with the Aquaseal zipper make the suit feel like a regular garment, and adapt to user's movements smoothly. Front zipper allows the user to don the suit without assistance. The cover flap on the dry zipper protects the zipper from sand and dirt, as well as prevents the jacket from rubbing against the zipper teeth. The roomy and easy accessible thigh pockets are made of suit material.
